SECRET*Memorandum*TO : **C/SMS**DATE: **20 July 1965**FROM : **DAD/S&D**

SUBJECT:

Could you prepare a set of specifications suitable for competitive bids for universal power measurement equipment? I would like to have this in draft form by 15 August with a view to having a completed document by 31 August. I am particularly anxious to determine the amount of similarity between equipment of this type and the sort of equipment which GSD would need in order to fulfill quick reaction requirements from OPD. You might keep that in mind in the development of the specification.
